### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Cole on November 10, 2005.

The application has been amended as follows: In claim 1, line 17, the first occurrence of "bar" is replaced with --arm--.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach the claimed amendments filed on October 28, 2005, including the lock bar disengaging the lock stopper such that the urging device urges the lock bar in the disengagement direction, and the cam disengaging the lock bar from the steering shaft only when the urging device is insufficient to disengage the lock bar from the groove.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
